

BLUE DYE

OIL SOLUBLE DYE

PRODUCT DESCRIPTION

Blue Dye is a highly concentrated oil soluble dye for adding color to lubricating oils, transmission oils, hydraulic oils, and fuels. It is visible at concentrations of 1 part per 10,000.

PRODUCT BENEFITS

- Blue Dye can be used to code oils to prevent mix-ups, or identify the source of an oil leak
- Visible at concentrations of 1 part per 10,000

DIRECTIONS FOR USE

Add 1 oz. (30 ml) Blue Dye to 125 gallons (473 liters) of the oil to be identified.

TYPICAL PROPERTIES

| | |
|-------------------|-----------------------|
| Appearance | Thin, dark blue fluid |
| Specific Gravity | 0.99 g/ml |
| Flash Point (COC) | 141°F (61°C) |

PRODUCT NUMBER

8536000000
